

## SilvAssist 4.0 Install and Registration Procedures

Please note that SilvAssist 4.0 will only install on PC's with Windows 7- 10 that have ArcGIS 10.1 - 10.5 already installed. If you have different versions, please contact us at **support@lmssmail.com** for your options. There is a \$300 fee to upgrade from SilvAssist 3.0 to 4.0.

1. Download the SilvAssist 4.0 installer from our website link.
2. Unzip the file and double click on both the files in the folder.
3. Open ArcMap and add the SilvAssist 4.0 toolbar to your map. Click on the Tree icon on the top of the toolbar and you will be prompted to enter a User name and Password which will be provided by F4 Tech.
4. You will need to have TCruise Desktop and the LandMark Export Module installed and registered on your PC to be able to create the database needed to load data into SilvAssist. See the Software Downloads section of the LandMark Spatial Solutions website for install links and instructions for install and registration of these programs.
5. Call us at 866-395-5440 x2 or email support@lmssmail.com if you have problems or questions.
