▶ Upload images to calculate an orthophoto

Show info ↓

### Processing

- 1 Orthophoto**  
Upload images to start processing  
Upload more than 10 images  
[Upload images](#)
- 2 Area of Interest**  
Upload an AOI  
[Upload AOI](#)
- 3 Detection**  
You need an Orthophoto and an AOI before starting detection
- 4 Analysis**  
Detect seedlings first!

Orthophotos are specifically optimised for forestry settings

No distortions or fragments, as sometimes seen in standard orthoprocessing softwares

No need to handle or store large file sizes
