## GEODE COMPATIBILITY

The Geode™ Grip is the ultimate companion for your Geode GNSS Receiver. Designed to create a more streamlined and ergonomic setup for mapping in the field, the Geode Grip offers a one-handed field carry solution for your mapping needs.

With the Geode Grip users have the ultimate choice in which data collection device they'd like to pair with their Geode. The Geode Grip is available with mounts for Juniper's own Archer 4 Rugged Handheld, Mesa 7-inch Rugged Tablets, leading smartphones, and consumer tablets. Regardless of what device you decide to pair with your Geode GNSS Receiver the Grip has you covered.
